This list is to provide you with an idea of what you may need when living in the residence hall. Some items you may need, other items you may not need. Please remember that you should not pack your entire room and haul it off to college. There is limited space in the residence hall rooms. There is a Target, Wal-Mart and additional stores in the area where you can purchase items once you have arrived to campus. The ONLY electrical cooking items allowed in the residence hall are those listed on this sheet. Other electrical cooking items are NOT permitted. Thanks!
