

Halcyon Hall What to Bring

The following list is neither a must have, nor necessarily complete, it is just to give you an idea of what you will need when living in the residence hall. Due to COVID-19, less is better and if you really want to bring something from home, make sure it is essential for this semester. There is a Target, Walmart and additional stores in the area where you can purchase items once you have settled in. Plan to switch out seasonal items during the breaks. You can bring Summer and Fall items in August. Winter and Spring items can come back with you when you return in January.

***Note: Due to COVID-19, We advise that you have emergency funds set aside in the case that we have to transition to online learning. Also, please have an action plan in place with friends/ family in the area if necessary.**
