INTRODUCTION

The Edyth T. James Department of Nursing at Washington Adventist University (WAU) is among the first nursing programs established in the state of Maryland, dating back to 1909. The university now offers a Bachelor of Science in Nursing degree, a four-year program committed to providing quality Christian nursing education. The Nursing program maintains rigorous standards, is accredited by the Commission on Collegiate Nursing Education, and is approved by the Maryland Board of Nursing.

The nursing program's curriculum is designed to develop professional competence in the scholarly practice of nursing. The program offers interrelated theoretical and clinical learning experiences, and multiple agencies are utilized for clinical affairs, including Adventist Healthcare White Oak Medical Center, Shady Grove Medical Center, Children’s National Medical Center, MedStar Washington Hospital Center, Washington DC VA Medical Center, and other various skilled nursing facilities. The didactic and clinical experiences in the program enrich student learning and enable the integration of theory and practice of professional nursing within the healthcare system in a multicultural society. Employment opportunities extend beyond hospitals and nursing homes to community health agencies, health maintenance organizations, private industries, educational institutions, and mission and foreign services.
