RE: Program #0639

Dear Ms. Mitas:

Thank you for providing a list of currently enrolled students who were verbally apprised that the radiography program sponsored by Washington Adventist University has been placed on Probation. Consistent with JRCERT Policy 10.700, the program must provide enrolled and accepted students with written notification of the award of Probationary Accreditation. Therefore, please provide documentation of the written notice provided to enrolled and accepted students, as well as a listing of accepted students, no later than **April 28, 2023**. It is noted that the program has posted the notice on the program's website.

Please be advised that if the JRCERT Board of Directors involuntarily withdraws accreditation, students who graduate after the effective date of withdrawal will not be considered graduates of a JRCERT-accredited program.

If I can be of further assistance, do not hesitate to contact me.

Sincerely,

Ms. Leslie F. Winter, M.S., R.T.(R)
Chief Executive Officer
