The help from techs

THE PEOPLE HONESTLY, Kevin, Badar, Henry, Nikita, Ephrem, Mel, Jenn they all care about us succeedingggggg they actually go over things then we ask even if it lowkey annoys them they are always eager to help you.

STURENTS HAVE THE SUPPORT FROM THE CLINICAL INSTRUCTORS AS WELL AS THE ENTIRE OF STAFFS.

Mr. Kevin B., Badar, Henry, Beaula, and other techs will be useful and valuable assets to the students for explaining and they know their teaching.

Very good teaching hospital

It's a good environment to learn and be at.

They let you do the X-rays and if u make mistakes, they take the time to teach u the right way and they always teach us by the book .

All the techs are helpful in this facility.

Kevin, Henry, Jen, Joseph, Mike, and Beulah are all extremely knowledgeable and represent the career of a technologist very professionally. I think Kevin would be a perfect person to ALSO do comp evals. He is excellent at teaching and it would be really beneficial to have someone consistently at each site who can do them.

I will say being able to practice in an environment that is very welcoming and friendly.

Willing to take the time to teach you

Kevin Badar and Henry

The teaching and making it possible to get the comps you need
